NOTICE ABOUT HEALTH PLAN IMPROVEMENTS

February 2010

To: All Plan Participants

Shingles Vaccine Covered for Participants Age 50 and Older

Effective March 1, 2010, the Plan will cover a voluntary vaccination for shingles for Plan participants who are age 50 and older, including participants who are eligible under the Medicare supplement. If you and your doctor determine that a shingles vaccine is appropriate for your health care, the vaccine will be paid under the Comprehensive Benefit, and subject to the calendar year deductibles, out-of-pocket limits, and Plan copayment percentages. You can also file a request for reimbursement under the Special Fund for (see pages 44–46 of your SPD for information about your Special Fund) any amounts you pay out of pocket.

Remember, the Plan does not cover any other type of immunization or vaccine, except as a reimbursable expense under the Special Fund.

Reminder about Post-Mastectomy Benefits

The Plan will consider charges for the following services and supplies to be covered medical expenses when the charges are incurred by a covered person who is receiving Plan benefits for a mastectomy, and when the person elects (in consultation with their physician) breast reconstruction in connection with the mastectomy:

- ♦ Reconstruction of the breast on which the mastectomy has been performed;
- ♦ Surgery and reconstruction of the other breast to produce a symmetrical appearance; and
- ♦ Prostheses and physical complications relating to all stages of the mastectomy, including lymphedemas.

Plan benefits payable for these services and supplies are subject to the deductibles, co-payment percent-ages and maximum benefit limitations applicable to covered services for other covered medical conditions.

Call the Plan Office if you have questions about your benefits or eligibility. If you need a copy of your Summary Plan Description, you can obtain one (and notices of any subsequent changes) by calling the Plan Office. Please keep this notice with your Summary Plan Description booklet for future reference.
